

GENERAL NEWS.

The Mexican revolutionists have been defeated.

On Sunday the 18th a fire destroyed property worth \$400,000 in St. Louis.

Mr. Gladstone is enjoying excellent health amidst all his political excitement.

Philadelphia saloon keepers are excited over the revival of an old Sunday liquor law.

Several rich tin ore mines have recently been discovered in Pennsylvania, Dakota and Minnesota.

Prince Napoleon is about to start for New York to meet his son, on the completion of his trip around the world.

A Mrs. Mrrina Wright of Addison, Ut., has lived to be over 102 years old, has lived in her present residence 91 years.

Ringler, a teacher of foreign languages, starved to death in one of our Eastern cities last week. He was a Poleander.

George Roop, a prize fighter, on the return from a Western trip celebrates the event by beating his wife. He was placed in jail.

Powderly, the Grand Master Workman of the Knights of Labor, is talked of as the coming Democratic candidate for Governor of Pa.

Quite lately a new extradition treaty between England and the United States has been signed. Both countries have agreed to surrender all Dynamiters.

A Detroit tramp, after tramping the streets of the city for ten days, rescued a child from drowning after which he received praise, thanks and something to eat.

A young butcher in New York city, a few days ago, while dressing a quarter of beef, cut himself in his groin. The femoral artery was cut, bleeding him to death in two minutes.

A large turtle was killed a few days ago in La., near Lincoln. Its head was cut off, and three days afterward, a chicken found the head and picked it, when the head snapped the chicken to death.

The steamer Gate City, Capt. Hedge, of the Boston & Savannah Steamship Line, while on passage from Savannah to Boston went ashore on the south side of the Island of Naushou, in Vineyard Sound on the 19th.

A count of matter mailed at 20 leading postoffices during the last week of June shows an increase over the same period of 1885 of 21.7 per cent, in letters mailed, 59.3 per cent, in sealed packages 49.6 per cent, in unsealed parcels, and 3.1 per cent, in circulars.

The human skeleton found under a flagging, at New York, a few days since is supposed to be that of Alexander T. Stewart, the millionaire, whose body it will be remembered was stolen from its grave in 1878 and never recovered. Investigation will determine the fact.

Miss Rose Cleveland is taking great care as to what her first appearance in print will bear an Edithess. She says: I mean to rather address myself in this first number to my country women and my literary country women, and make my talk very simple and earnest and sincere. I shall ignore the great critics altogether.

A little boy in Camden, a few days ago, was told to drive some chickens out of the yard. He threw a stone at them and killed one of the finest. The lady to whom the chickens belonged became so enraged that she beat the boy with a piece of wood, until he fell at her feet. He died ten days after from the effects. Mrs. Webber has been arrested.

The salvation army has been painting warnings and invitations to sinners on the fences and rocks along the Central Railroad New Jersey. In some instances the soldiers went so far as to put their sayings on sidewalks and buildings. The citizens are objecting in many places, because these are not the proper places to place Scriptural warnings.

A picture of birds and their nest was sent to President Cleveland a few days ago, by Miss Black of Charleston. With these words: "To each bird its own nest is charming." The President kept the gift and sent a card of thanks in which he says: "I acknowledge the truth of the words with which the picture is illuminated, and am very thankful for their truth."

In 1881, Capt. Hanscombe, on a return from West India, where he had made a fortune, was ship-wrecked. He had made his will and placed it in a tin box which was thrown over board. The box floated ashore and was found to contain a fortune of \$250,000, left to

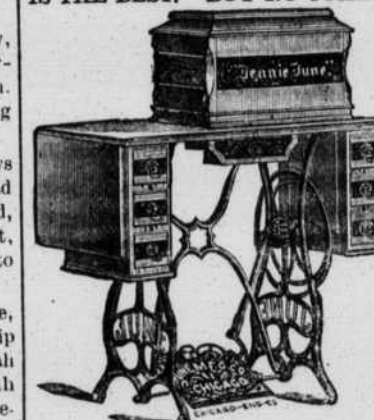

an only daughter of the captain's. She was not found until quite recently while working as a servant in a wealthy family. She now takes charge of her money a happy young woman.

Prof. Dodge, the Statistician of the Agricultural Department, says concerning the various estimates made from his last report on the wheat crop that though the average of condition of spring wheat on July 1 was 96, it fell to 86 at the time of harvest, which is only three points higher than the present condition, and represents a loss of less than 6,000,000 bushels as compared with the results of last year's harvest. The damage occurred last year in the last two weeks of July and later. There is a great risk of further damage during July and August, but that already reported means only a loss of 6,000,000 bushels in spring wheat and 5,000,000 in winter wheat, or a total loss of 110,000,000 in wheat during the month of June.

It is estimated that the loss to the workingmen in this country who were engaged in the recent strikes, will foot up fully \$1,000,000. And this is a trifle compared to the losses inflicted on an innocent public. The sons of toil must find some wiser way of securing their just demands.

THE BEST

boon ever bestowed upon man is perfect health, and the true way to insure health is to purify your blood with Ayer's Sarsaparilla. Mrs. Eliza A. Clough, 34 Arlington st., Lowell, Mass., writes: "Every winter and spring my family, including myself, use several bottles of Ayer's Sarsaparilla. Experience has convinced me that, as a powerful

Blood

purifier, it is very much superior to any other preparation of Sarsaparilla. All persons of scrofulous or consumptive tendencies, and especially delicate children, are sure to be greatly benefited by its use." J. W. Starr, Laconia, Iowa, writes: "For years I was troubled with Scrofulous complaints. I tried several different preparations, which did me little, if any, good. Two bottles of Ayer's Sarsaparilla effected a complete cure. It is my opinion that this medicine is the best blood

Purifier

of the day." C. E. Upton, Nashua, N. H., writes: "For a number of years I was troubled with a humor in my eyes, and unable to obtain relief until I commenced using Ayer's Sarsaparilla. I have taken several bottles, am greatly benefited, and believe it to be the best of blood purifiers." R. Harris, Creel City, Ramsey Co., Dakota, writes: "I have been an intense sufferer, with Dyspepsia, for the past three years. Six months ago I began to use

AYER'S
Sarsaparilla

It has effected an entire cure, and I am now as well as ever.

A Literary Coup D'Etat.

Of all the surprises to which the reading public has been treated by Mr. Alden's surprising *Literary Revolution*, perhaps the most remarkable is the last.

Two of the choicest and most famous books in modern literature, *WASHINGTON IRVING'S "The Sketch Book"* and *"Knickerbocker's History of New York,"* are just published in style worthy of this most widely celebrated and universally honored of American authors. The two books together from ONE of the NINE volumes of his works also just published. The type is large, leaded, beautiful; the two volumes bound in one comprise 606 pages; the binding is HALF MOROCCO, marble edges. The only other edition in the market that at all compares with this or rivals it, is advertised by the publisher at \$3.00 per volume.

Mr. Alden's price when sold in sets of nine volumes, is a little less than \$1.00 per volume. He now offers this single specimen volume UNTIL SEPTEMBER 1, 1886, for the price (if it can be called a price) of 50 cents, by mail, postage paid.

This offer is WITHOUT RESTRICTION or CONDITION; if there are a hundred thousand, or half a million of those who take pleasure in the works of WASHINGTON IRVING, who want the volume, he says he will fill their orders as fast as his printers and binders can turn them out.

If you want to complete your set after you have received this volume, you can, of course do so by paying the additional price for the set. THE OBJECT of this extraordinary "Coup D'Etat" is of course, advertising; except for this consideration the price would be ridiculous and ruinous. Mr. Alden sends his complete Condensed Catalogue of standard books free to any applicant, or his Illustrated Catalogue, 132 pages, for four cents. Address, John B. Alden, Publisher, 383 Pearl Street, New York.

Sorts.

Andrews, the Georgian, who last year walked from Atlanta to Boston, is now on his second trip, accompanied by his little dog. The peculiar thing about it is that the pedestrian is 96 years old.

By taking Ayer's Sarsaparilla many a poor sufferer who submits to the surgeon's knife, because of malignant sores and scrofulous swellings, might be saved, sound and whole. This medicine purges out the corruptions which pollute the blood and cause disease.

A load of hay was being driven into the big barn of Schuyler Pasish of Naples, N. Y., the other day, when an iron bolt of the rack pressed so hard on a wheel that the tire struck fire and the hay was ignited. The driver had the presence of mind to back the load out of the barn and jump down. Then the frightened team ran through the village with the blazing load, setting fire to a bridge on the way. When they were stopped all of the wagon had been burned but the front wheels.

Ayer's Ague Cure acts directly on the liver and biliary apparatus, and drives out the malarial poison which induces liver complaints and bilious disorders. Warranted to cure, or money refunded.

Two children of Farmer Agnew of Tara, Canada, a boy of ten and a girl of four, while playing in the barn, found a gun which their father kept loaded for rats. "Stan" off there apiece!" said the boy, "an' let me see if I can't shoot you." The little girl obeyed cheerfully, and the young Canuck filled her face and shoulder with fine shot.

A goose that has been in the La Clair family for forty-one years died in western New York the other day.

Big Colleges.

With a misplaced zeal that is characteristic of all great causes, money is continually bequeathed and huge enterprises are being continually initiated for higher educations, while those adults who need a lower or more elementary training are neglected.

The Methodist church is nobly striving to build up great universities throughout the South, when the colleges and universities of the South already in operation and nothing is so much needed as pupils, and they lack pupils because they are colleges—that is, they do not provide instruction in the lower branches for adults. It will be found that those institutions which recognize the demands of thousands of young men and women for preparatory training, have the most pupils.
